Core IT Services

Outsourced IT Manager

A senior IT head for your business, without the full-time salary.

- Regular on-site days each week or month
- IT planning, budgets and vendor management
- Policies, backups and security oversight

IT Support Contracts (AMC)

Fixed monthly or yearly support, so problems get fixed fast.

- Helpdesk support, remote and on-site
- Preventive maintenance visits
- Agreed response times (SLA)
- Flexible terms: 6 months, 1 year, 3 years

Free IT Health Check

We inspect your setup and tell you what needs attention. No obligation.

- Network, Wi-Fi and internet review
- Servers, backups and security check
- Short written report with clear priorities

Networking & Infrastructure

Design, installation and upgrades for offices, schools and clinics.

- Routers, switches, firewalls and Wi-Fi
- Server rooms, racks and UPS power
- Complete office, school and cafe networks

AI Automation for Your Business

AI Customer Assistant

Answers customer questions on your website and helps them choose, day and night.

Smart Lead Sorting

Separates serious buyers from window shoppers, so you spend time on real customers.

Automatic Follow-ups

Reminders for invoices, bookings and orders go out on time without anyone chasing.

Also Available

Hardware Supply

We source the equipment your setup needs at competitive prices: laptops, desktops and workstations; network equipment, UPS and server racks; printers, copiers, screens and projectors.

Book a Free IT Health Check

We visit your office, check your network, systems, backups and security, and give you a short written report with clear priorities. No cost and no obligation.
